

WELL IN PECOS DOWN 510 FEET

Company Puts in Standard Rig to Complete Drilling Deep Test.

The Dixiefield syndicate, principally a lease holding concern of Indiana, Miss., is down 510 feet on a 15 inch well in the southwest quarter of section 28 in block 1 of the H. & G. N. R. R. survey in Reeves county, Texas, according to N. F. Chapman, of Indiana, one of the owners, now in El Paso.

The well is about one fourth of a mile from Dixiefield station on the Santa Fe railroad and 22 miles south of Pecos City. Mr. Chapman said the well had been put down with an ordinary rig for drilling water wells, but that a standard rig is now being installed with which to continue to 1,000 feet if oil in commercial quantities is not found at lesser depths.

Mr. Chapman also stated that the syndicate owned eight sections in the same locality in fee simple and had leases on 48,000 acres more.

Mr. Chapman has been a resident of Memphis in Louisiana county, N. M. He was formerly a resident of that county at one time. One of his associates in the Dixiefield syndicate is R. E. Griffith, now of Indiana, who was up to a few months ago editor and proprietor of the Deming, N. M., Graphic.

BONHAM TO DRILL.
Bonham, Tex., Sept. 17.—Landowners of Bonham and vicinity here have decided to drill for oil in that region. At a recent meeting the landowners decided to pool their interests and secure a competent driller.

COCKROACHES
EARLY KILLED TODAY BY USING STEARNS' PASTE

Also Kills Fleas, Lice and MICE
Ready for Use. Two sizes, 5c and 10c.

Really Removes Roots of Superfluous Hair
(Reduction, the New Wonder-Worker)

Without doubt the greatest thing yet discovered for hair-dandruff and itching is the wonderful phenolite method. It has none of the disadvantages of electricity or depilatories and, best of all, it removes the hair's roots and kills it down this instantly, leaving the skin so smooth and soft that no one can tell the user was ever the possessor of a hair. Phenolite is non-moisture, non-irritating, and to hairless a child could use it without any ill-effect. A skin of this remarkable substance, accompanied by simple instructions, can be obtained at no cost. What woman would not be delighted after saving those ugly hairs come out—including the roots—with her own eyes—adv.

The Colon Is the Home of Health—Keep It Clean!

HALL HOUSE CLEANING is at hand. It's a hard job, at best. But consider what an impossible task it would be if the house hadn't been getting its regular daily cleaning all these months!

Long before this no one could have lived in it. The accumulated dust and dirt, which is fairly easy to down day by day, would have so clogged the quarters that they would be uninhabitable.

Your Colon is the house where your health lives. It has different "rooms" in which your daily physical welfare "lives". These "rooms" are long and narrow. So they are easily clogged. And when constipation clogs them, your health has to get along the best it can in a home that isn't fit to live in, any more than a house clogged up with dust and dirt is fit for you and your family to live in.

Nujol is the broom that will keep this "home of health" in perfect order at all times.

Nujol is the only helper that will do this without turning things topsy-turvy and upsetting all the "rooms"—just as house-cleaning does.

By daily use of Nujol you can free yourself from all the disease-risk, discomfort and inefficiency that come from a clogged colon.

Nujol is not a medicine. Not the least particle of it is absorbed into the system. It is a clear, tasteless, odorless, absolutely HARMLESS oil and lubricant. A baby can take it with perfect safety. It doesn't upset the stomach or anything else. It simply keeps the home of your health CLEAN and COMFORTABLE.

Get a bottle of Nujol from your druggist to-day, and send for free booklet—"Thirty Feet of Danger."

Nujol Laboratories, STANDARD OIL CO. (NEW JERSEY), 50 Broadway, New York.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. All other brands are not Nujol. You may easily be deceived.

Desdemona Has 16 Completions In Short Time

Hamie-Lewis Well Is 1500 Barrel Gusher; Humble Well Extends Pool.

Desdemona, Texas, Sept. 17.—Sixteen completions were made in the Desdemona pool in the last ten days. Of these the largest is the L. E. Hamie-Lewis well, three and one-half miles north of the townsite. It is gushing 1500 barrels, proving much new territory.

The field was extended a little to the northeast by Humble Oil and Refining company's Humble No. 1. This well is only producing 10 barrels daily. It is two and one-half miles northeast of here and one-quarter mile north of the Skelly-Sanker Anderson well.

Other completions in the Desdemona pool follow:

Humble Oil and Refining company's Dick No. 2, 10 barrels.

Crescent Petroleum company's Terrell No. 1, 20 barrels.

Desdemona Oil company's Dabney No. 1, 20 barrels.

Desdemona Oil company's Davis No. 2, 1500 barrels.

Gallagher Lawson et al Dabney No. 1, 20 barrels.

James Jones, 25 barrels, lot No. 21.

Desdemona Petroleum company's McArthur No. 1, 300 barrels.

Comanche County Oil company's Terry No. 2, 250 barrels.

Skelly-Sanker No. 1, 800 barrels.

Skelly-Sanker No. 2, 800 barrels.

Wichita Holds Production At A Steady Gait

Shortage of Storage Still Hinders Production of Proved Wells.

Wichita Falls, Tex., Sept. 17.—During the past few weeks operations in the Waggoner pool and in the north-west extension of the field have gone forward in a regular routine manner, production diminishing and increasing little, from week to week. There is still a shortage of storage facilities which hinders to some extent the completion of numerous wells on the land.

NEW MEXICO COMPANY LETS CONTRACT FOR TEXAS WELL

The Citizens' Oil and Gas company, capitalization \$200,000, is a New Mexico corporation composed of Indiana, Miss., people, and has contracted to drill in section 36, block 2, H. & G. N. R. R. survey, near Dixiefield station on the Santa Fe railroad in Reeves county, Texas, according to N. F. Chapman, one of the directors of the company now in El Paso from Indiana.

The company has 100 acres leased in the vicinity of the holdings mentioned and 400 acres of lease near Dayton, Bixby county, N. M.

DUKE OF DUBLIN COMPANY BRING IN ITS SECOND WELL

The Duke of Dublin Oil company's No. 1 well in the northeast Burk Burnett field in Wichita county, Texas, has been brought in and is said to be good for 1000 to 1200 barrels. This is the second producer this company has brought in on this tract. The third well on the same tract is expected to be brought in within a few days.

A good many El Paso people are interested in this company.

FOUR RIGS NOW DRILLING IN THE HOLBROOK FIELD

In the Holbrook, Ariz., field it is stated that four rigs are actually drilling and two more wells will be drilled at an early date. The Wins River company has taken up the drilling operations on the Hop River well and is down about 2000 feet. The Holbrook Oil company is drilling and is in what is called the Coconino sandstone. The Adamson Oil and Land company is down about 1200 feet, but is temporarily held up on account of a broken crank shaft. The Black Canyon syndicate is said to be making good progress with an O'Neil core drill.

The Zuni Oil company is erecting a standard rig which is expected to be in operation soon. The Apache Oil company is the sixth concern, which is expected to start operations in the Holbrook field. It had not been entirely financed at last account.

SEARS WELL MAY MEAN NEW POOL IN TAYLOR COUNTY

According to an Abilene, Texas, report the Sears well of the Security Banking and Investment company at Fort Worth, located seven miles northwest of Merkel in Taylor county, is thought to be a possible new pool. Little is known by outsiders about the well as no visitors are allowed around it, but it is said that it was struck at about 2500 feet when a 49 foot cavern opened. It is maintained, however, that oil was within 100 feet of the top last Saturday.

X. L. GETS A GUSHER WELL

Only a Foot in the Sand, Oil Comes With a Rush—Third Well Starts.

Wichita Falls, Tex., Sept. 17.—While drilling out well No. 2 of the L. X. L. Oil company Monday afternoon to ascertain if the casing was tight, the well unexpectedly blew itself in. While only one foot in the sand oil came estimate the well is good for 2500 barrels.

Tanks are being rushed to take care of the oil.

The derrick for well No. 3 on the west end of the three-acre tract is being erected.

Drilling will start on this well immediately.

Eastland County Has World's Biggest Gusher

According to the Desdemona Texas Oil News the Harrell well in Eastland county, Texas, is the biggest gusher in the world. That paper claims that well was producing 150,000 cubic feet of gas a day when it was capped and that it is now furnishing sufficient gas to supply more than 200 boilers in the county.

The following completions were made last week in the Waggoner pool and in Iowa Park.

Waggoner Oil company, No. 2, 100 barrels.

Waggoner Oil company, No. 3, 100 barrels.

Waggoner Oil company, No. 4, 100 barrels.

ENGINEER PREDICTS BIG OIL POOL AT SAFFORD, ARIZ.

That there are highly apparent geological reasons for predicting the finding of oil in the Safford, Ariz., valley drift at no great depth, says a 2500 to 3000 feet is stated in the preliminary report of Walter G. Day, geologist, U. S. Geological Survey, and mining engineer on the Bear Springs, Ariz., district to the Bear Springs, Ariz., district.

The district named is in what is called the Safford, Ariz., section. In this report Mr. Day says that he has examined the only known well in the Safford valley northwesterly to the San Carlos reservation. The Bear Springs section is included in the report. Mr. Day says that he would make a further and more complete report.

EL PASO MAN BUYS FIVE ACRES IN DESDEMONA FIELD

L. Kell, of El Paso and Desdemona, Texas, who is here on business, stated Monday that he had just purchased five acres in the L. E. Hamie-Lewis well in the Desdemona field. He said their first well had just spudded in. Mr. Kell has opened a brokerage office in Desdemona.

SENATOR DUDLEY BUYS TEN ACRES IN EASTLAND COUNTY

State senator R. M. Dudley, of El Paso, is reported to have acquired a 10 acre tract in the L. E. Hamie-Lewis well in the Desdemona field. He said their first well had just spudded in. Mr. Kell has opened a brokerage office in Desdemona.

GAS NEAR BROWNWOOD

Brownwood, Tex., Sept. 17.—A strong gas pressure was felt at some oil wells in the Hamie-Lewis well in the Desdemona field. This indicates that the well will probably be a good producer. It is only producing gas the gas supply of Brownwood will be un-derestimated. It is drilled in within the next few days.

KILLEY GREENE WELL IN

The Killey Greene Oil company is reported to have a 100 barrel well in its Leachester No. 1 in Stephens county, Texas, after being shut in for 200 barrels of nitrogen. The depth of the well is 2200 feet.

NOSEPIST RITES

Just as soon as you feel the effect of the Malarial Germs after being bitten by Malarial Mosquitoes, it is advisable to take GROVE'S TASTELESS CHILL TONIC to destroy the germs and remove the unpleasant, malarial, feverish, hot, the per bottle—Adv.

DOCTORS USE CALOTABS FOR COLDS AND FLU

Influenza and Grippe, Like Ordinary Colds, Require Calotabs, the Purified and Refined Calomel Tablets That Are Tasteless, Safe and Sure.

Physicians and druggists claim that the great epidemic of influenza has conclusively demonstrated that the quickest relief for a cold and the best preventive of influenza and pneumonia is to keep the liver active so that the digestive organs may be in perfect condition. For this purpose Calotabs, the purified and refined calomel tablets that are free from the sickening and weakening effects, is the most thorough and dependable as well as the most agreeable laxative.

Calotabs have the special advantage of not making the patient sick and weak, as they do not upset the digestion and appetite. One Calotab at bed time will swallow of water—that's all. No salts, no purgatives, no slightest interference with your eating, pleasure, or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine with a hearty appetite for breakfast.

For your protection, Calotabs are sold only in original sealed packages, price thirty-five cents. Sold by all druggists and your money back if you are not delighted with them—Adv.

TOYAH BASIN COMPANY WILL DRILL NEAR DIXIEFIELD

The Toyah Basin Oil company of New York has a standard rig on the way from California to drill on holdings near Dixiefield station on the Santa Fe railroad in Reeves county, Texas, 21 miles north of Pecos City, the county seat, according to N. F. Chapman of Indiana, Miss., who is interested in oil lands in that section. This company has been located to drill four wells in the neighborhood of Dixiefield. Its holdings were acquired through the Dixiefield syndicate of which Mr. Chapman was one of the owners.

New District In Oklahoma Has Producer

Graham Region Gets 250 Barrel Well From Big Oil Sand.

Armore, Okla., Sept. 17.—The first well to be completed in the Graham district is that of the Healdston Petroleum company and C. H. Smith in section 21-36-37. The well is estimated as good for 250 barrels of oil from a 72 foot broken oil sand.

In the Fox district the Humble Oil and Refining company's well in the northeast corner of section 21-26-37, is making 20,000,000 cubic feet of gas from a depth of 900 feet.
